

Piute County School District will be asking parents, students, staff, and community members who would like to submit a survey to do so until this Friday May 5, 2023.

Students will be starting to complete surveys Tuesday May 2, 2023. If you would like to opt out of having your student from the survey please visit the school and fill out an opt out form.

The School Climate Survey:

Elementary is an anonymous survey used to identify school climate issues within our school. The survey for elementary school students includes 12 questions (K-2) and 20 questions (grades 3-5).

Middle/High is an anonymous survey used to identify school climate issues within our school. The survey for secondary school students includes 44 questions.

The survey is anonymous, but parents/guardians can request students to opt out if desired. The data collected from the survey will be used to identify student perceptions of school climate issues within our school.

School staff use the results to inform our efforts at improving our school climate. Responses are housed securely in an anonymous format with the USBE (Utah State Board of Education). All evaluation research projects are in compliance with the Family Education Rights and Privacy Act, (343 CFR 99.31 (6)) and human subjects regulations (Protection of Human Subjects 45 CFR 46).

Our desire is to involve parents in their children's education. If you do not wish for your child to participate in this important activity, please visit the school and fill out an opt out form.

If you would like to examine the survey, please come by the school, and we will be happy to provide you with a copy for your review.

Thank you for your participation,

Piute County School District
